

List of posters

	Name	Country	Title
1	Monica Albini	Italy	The INTERFACE Project: Conservation of Painted Metal Artefacts
2	Jerrad Alexander	USA	The Use of Industrial Vapor-Phase Corrosion Inhibitors on Large and Composite Objects
3	Aurelia Azema	France	Study of Dark-Red Staining on Lead Rooftops and Sculptures
4	Sarah Barack	USA	All That Glitters: Treatment and Technical Study of an Ormolu <i>Surtout de Table</i>
5	Elena Bernardi	Italy	Appearance and Corrosion of Weathering Steel at an Urban-Coastal Site: Influence of Environmental Conditions during the First Months of Exposure
6	Laura Brambilla	Switzerland	Diagnostics and Monitoring of Historical Vehicle Engines by Acoustic Emission Testing
7	Sabine Brechbühl	Switzerland	Freshly Excavated Coins: Best Practice for Rapidly Obtaining Numismatic Information
8	Alice Camoli	Italy	Protection and Meaning: A Reflection on the Role of Painted Surfaces on Outdoor Metal Sculptures and Their Conservation
9	Sara Creange	The Netherlands	Finding the Way Forward with Atomic Layer Deposited Coatings on Silver Heritage Objects: Moving from the Laboratory to Conservation Practice
10	Alexander Dittus	Switzerland	Custom-Made Desalination Structures for Iron and Copper-Alloy Composite Objects
11	Emmanuelle Domon Beuret	Switzerland	Conservation and Stabilization of Iron Objects from the Archaeological Site of La Tène (Neuchâtel) in View of New Investigations and a New Exhibition in the Laténium
12	Andrea Fischer	Germany	Spectacular Spectacles: Corrosion Cases
13	Anna Funke	USA	Comparing Different Deconcretion Strategies for the Ballast Tanks of the <i>H.L. Hunley</i> Submarine
14	Sandra Garšvienė	Lithuania	Conservation of 8th–9th-Century Curonian Women's Jewellery
15	Alice Gerber	Switzerland	Corroding Lead Comes on Stained Glass Windows: A Case Study of Two 16th-Century Panels in Their Display Case

16	Christine Gessler	USA	Just When You Thought You Knew How to Polish Silver: An Analysis of Silver Polish Applicators
17	Patricia Giménez-Barrera	Spain	Non-Destructive Investigation of the Conservation and Restoration of Ductile Metals in Cultural Heritage Artifacts
18	Elodie Guilminot	France	Use of Gels for the Treatment of Metals
19	Ryma Hatahet	France	Conserving Clocks: Thoughts and Challenges
20	William Hoffman	USA	A Project with Potential: Evaluating a New Monitoring System for Artifacts Undergoing Electrochemical Treatment
21	Mathea Hovind	Norway	Use of the MiCorr Application for the Local Diagnosis of Metal Artefacts: The Conservator's Point of View
22	Irina Marilyn Huller	Austria	Two Iron Age Barrel Bracelets - Investigation, Technology and Conservation
23	Hazel Hunter	UK	Examining Metal Corrosion Using Electrochemistry
24	Ineke Joosten	The Netherlands	Marine Precious Metals After Excavation
25	Edith Joseph	Switzerland	Assessing the Performance of Protective Treatments on Outdoor Sculptures: To Be or not To Be a Representative Model Sample?
26	Milan Kouril	Czech Republic	Classification of Indoor Air Quality with Respect to Lead Corrosion
27	Zoran Kirchhoffer	Croatia	Restoration and Conservation in Unfavorable Working Conditions: A Case Study
28	Helena Kupershmidt	Israel	The Mystery of Ancient Metal Amulets
29	Maria Labut	Poland	Preliminary Results of Research on 17th–19th-Century Coffin Portraits from the Collection of the National Museum in Krakow
30	Florence Lager	Switzerland	Alkaline Sulfite Desalination of Formerly Restored Damascened Merovingian Belt Buckles: A Possible Challenge
31	Rebecca Lang	UK	Whiskers and Strands: Unexpected Corrosion on Early Medieval Metals on Display at the Museum of London
32	Daniela Lira	Mexico	Bells in Use: From Living Heritage to Legend
33	Ian MacLeod	Australia	Passive Removal of Silver Sulfide Layers from Metal Threads on Textiles by Storage in an Intercept Bag
34	Paul Mardikian	USA	Treatment of a Composite Sock-Knitting Machine Using Dry-Ice Cleaning
35	Carla Martini	Italy	Two Bronze Statuettes from the Estense Gallery: Materials, Casting Technology and Conservation Intervention
36	Eva Menart	Slovenia	Study of a Preventive Conservation Procedure for Paintings on Iron Plates
37	Aline Michel	Switzerland	Conservation Strategies for Cans in Collections

38	Dajana Mikić	Croatia	Application of Self-Assembled Monolayers of Long-Chain Organic Acids in the Corrosion Protection of Bronze
39	Anna Mistewicz	Poland	Display Cases for Metal and Composite Objects at the National Museum in Warsaw, Poland
40	Saray Naidorf	UK	Conservation of a Restored Late Iron Age Strainer Bowl
41	Nataša Nemeček	Slovenia	Exploring Suitable Parameters for Electrochemical Cleaning/Consolidation of Museum Objects and Practical Use of the Pleco Electrolytic Pencil
42	Aline Petitmangin	France	Atmospheric Alteration of α/δ Bronze Bells: Micro-Infiltrating Corrosion
43	Martina Raedel	Germany	Conservation of Damaged Architectural Aluminum Elements
44	Dominique Robcis	France	Gilding Iron in the 16th Century
45	Tatiana Russo dos Reis	Brazil	The Patina on Amilcar de Castro's Weathering Steel Sculpture: The Influence of the Museological Environment
46	Silvia Russo	Switzerland	Developing a Sustainable Approach for Screening and Studying Functional Metal Objects
47	Silvia Russo and Amilia Siatou	Switzerland	CHANGE - Cultural Heritage Analysis for New Generations
48	Jan Růžička	Czech Republic	Restoration of a Decorative Baroque Door Lock from circa 1720–40
49	Elsa Sangouard	USA	Use of a Heated Rinse to Facilitate the Thorough Removal of Sodium Sesquicarbonate from USS <i>Monitor's</i> Copper Alloys After Desalination
50	Jill Saunders	UK	Conserving Conservation: The Critical Application of Traditional Metalworking Skills and the Importance of Knowledge Transfer to New Generations of Conservators
51	Justin Schwebler	USA	Conservation Treatment of the Six-Inch, Thirty-Caliber Mark III Gun and Carriage on the USS <i>Maine</i> (ACR-1)
52	Asta Vasiliauskaite	Lithuania	Backyard Treasures: A Case Study from Kulautuva Cemetery, Lithuania
53	Preeti Verma	India	Microstructural Examination of Kaushambi Copper-Alloy Coins
